Key: Pos. = Standings position, GP = # of games played so far, W = Wins, L = Losses, T = Ties, GF = Goals for, GA = Goals against, GD = Goal difference (GF minus GA), Pts. = Points accumulated through game results (2 points for a win, 1 for a tie)											
GCW = Team won the GNASH Cup regular season championship.											
Tiebreakers in order: 1) More games won, 2) Head-to-head, 3) Greater goal difference (in a game where a team wins by more than six goals, goals above the margin of six will not be calculated; for example, if Team A beats Team B 9-2, only 8 of Team A's goals scored will be calculated; likewise, only 8 of the goals that Team B gave up would be calculated), 4) Fewest goals allowed in all games, 5) Period points (a team receives 2 points for winning a period, 1 for tying a period, and 1 for a period shutout [in cases where a period ends with neither team scoring a goal, only 1 point is given for tying the period, and no extra point for a shutout is awarded]), 6) Fewest minor penalties in all games played, 7) Fewest total penalty minutes in all games played, 8) Coin toss
